

Your Goal: Combine the tiles to form a continuous path.

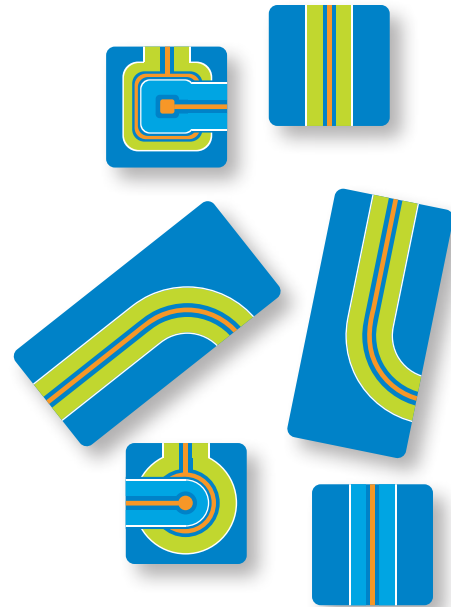

To Play:

1

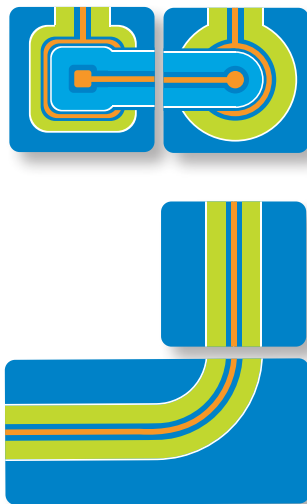

Pick a challenge card from the deck.

2

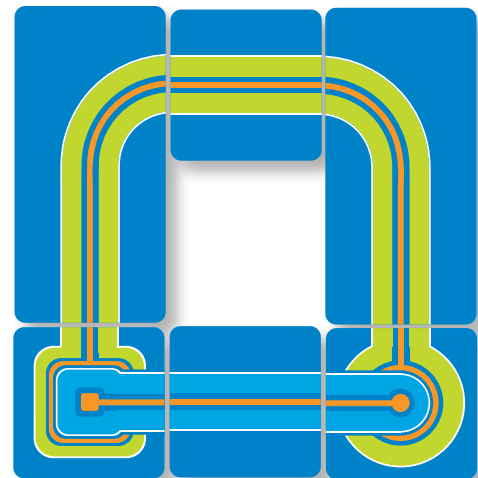

Select the tiles shown on the challenge card.

3

On a flat surface, place the tiles together; blue lines must join other blue lines, green lines must join other green lines. Try to find a way to connect the tiles to form an uninterrupted (or “unbroken”) loop.

4

You must use all of the game tiles shown on the card to complete the challenge.
